

Acta
OTO-LARYNGOLOGICA

Vol. 109 · JANUARY-JUNE 1990 · No. 1-6

EDITORS:

B. DRETTNER

HUDDINGE · SWEDEN

ASSOCIATE EDITOR:

C.-M. ENEROTH

LUND · SWEDEN

EDITORIAL BOARD:

DENMARK: P. BRET LAU · O. ELBRØND · K. JØRGENSEN · H. SØRENSEN · M. TOS

FINLAND: P. KARMA · J. KÄRJÄ · A. PALVA · T. PALVA · E. VIROLAINEN

NORWAY: G. DJUPESLAND · I. MAIR · J. OLOFSSON · F. WINNER

SWEDEN: M. ANNIKO · E. BORG · B. DRETTNER · C. M. ENEROTH

C. LUNDBERG · P.-G. LUNDQUIST · J. STAHLÉ · N. G. TOREMÄLM · J. WERSÄLL

Index

Vol. 109, No. 1-2, 1990

Otoneurology

de Jong HAA, Kortschot HW, Oosterveld WJ. Caloric nystagmus decay during parabolic flight 1

Takahashi S, Fetter M, Koenig E, Dichgans J. The clinical significance of head-shaking nystagmus in the dizzy patient 8

Möller C, Ödkvist LM, White V, Cyr D. The plasticity of compensatory eye movements in rotatory tests. I. The effect of alertness and eye closure . . 15

Huygen PLM, Verhagen WIM, Hommes OR, Nicolassen MGM. Short vestibulo-ocular reflex time constants associated with oculomotor pathology in multiple sclerosis 25

Audiology

Johnson A-C, Nylén P, Borg E, Höglund G. Sequence of exposure to noise and toluene can determine loss of auditory sensitivity in the rat 34

Grenner J, Nilsson P, Karbamna B. Right-left correlation in guinea-pig ears after noise exposure . . . 41

Inner Ear

Comis SD, Osborne MP, Jeffries DJR. The effect of furosemide upon the morphology of hair bundles in the guinea pig cochlear hair cells 49

Berggren D, Anniko M, Thornell L-E, Ramaekers FCS, Virtanen I. Intermediate filament proteins in the inner ear of mice under normal conditions and after exposure to ototoxic drugs 57

Furness DN, Hackney CM, Hynd AN. Rotated stereociliary bundles and their relationship with the tectorial membrane in the guinea pig cochlea . . . 66

Fredelius L, Rask-Andersen H. The role of macrophages in the disposal of degeneration products within the organ of Corti after acoustic overstimulation 76

Ross MD, Cutler L, Meyer G, Lam T, Vaziri P. 3-D components of a biological neural network visualized in computer generated imagery. I. Macular receptive field organization 83

Takeuchi S, Takeda T, Saito H. Pressure relationship between perilymph and endolymph in guinea pigs 93

Middle Ear

van Blitterswijk CA, Hesseling SC, Grote JJ. The effect of external stimuli on cultured rat middle ear epithelium. I. Extracellular calcium concentration 101

Karjalainen H, Koskela M, Luotonen J, Herva E, Sipilä P. Antibodies against *Streptococcus Pneumoniae*, *Haemophilus Influenzae* and *Branhamella Catarrhalis* in middle ear effusion during early phase of acute otitis media

Hermansson A, Prellner K, Hellström S. Prevention of experimental acute otitis media with penicillin V

Palva T, Taskinen E. Inflammatory cells in chronic middle ear disease. Value of lymphocyte subset determination in ear surgery

Åberg B, Bagger-Sjöbäck D, Edström S, Heyden G, Jacobsson M, Kindblom L-G. A comparative study of enzyme histochemical features in the gerbilline and human cholesteatoma

Nose/Nasopharynx

Wight RG, Cochrane T. A comparison of the effects of two commonly used vasoconstrictors on nasal mucosal blood flow and nasal airflow

Stenfors L-E, Räisänen S. Occurrence of middle ear pathogens in the nasopharynx of young individuals. A quantitative study in four age groups

Dolata J, Lindberg S, Mercke U. The influence of leukotrienes and platelet activating factor on mucociliary activity in the rabbit maxillary sinus . . .

Oncology

Munck-Wikland E, Kuylensstierna R, Lindholm J, Rubio C. Image cytometry DNA analysis of diethylnitrosamine-induced dysplasias and invasive squamous cell carcinomas of the esophagus in mice . .

Vol. 109, No. 3-4, 1990

Editorial

Review Article

Stahle J. Controversies on the caloric response. From Bärány's theory to studies in microgravity .

Otoneurology

Möller C, White V, Ödkvist LM. Plasticity of compensatory eye movements in rotatory tests. II. The effect of voluntary, visual, imaginary, auditory and proprioceptive mechanisms

Clément G, Berthoz A. Cross-coupling between horizontal and vertical eye movements during optokinetic nystagmus and optokinetic afternystagmus elicited in microgravity

Himi T, Igarashi M, Takeda N. Effect of vestibulo-cerebellar lesions on asymmetry of vertical optokinetic functions in the squirrel monkey
